

## Avoid all Substitutes for Royal Baking Powder.

No other Baking Powder is "just as good as the 'Royal'" either in strength, purity or wholesomeness. The "Royal" is superior to all others in all ways. Most housekeepers know this from their practical experience, and the reports of the U. S. Government investigations show it officially. The Government chemist says the "Royal" is "undoubtedly the purest and most reliable baking powder offered to the public."

If some grocers try to sell another baking powder in place of the "Royal" they do so because they can make a greater profit upon the other; good evidence of the superiority of the "Royal." To give greater profit the other must be a lower-cost powder, and to cost less it must be made with alum or cheaper and inferior materials.

Because the "Royal" uses more highly refined and expensive materials it costs more to manufacture than any other baking powder, but it is correspondingly purer and higher in leavening strength, and accordingly of greater money value to consumers, although the retail price to them is generally the same. Consumers are entitled to full value for their money, and therefore will not, if wise, accept any substitute for the "Royal."

Unfortunately, not only are many of these would-be substitute powders made from inferior and unwholesome materials, but they are placed before the public with advertisements intended to mislead as to their true character. A powder advertised by its manufacturers to have printed upon its label all the ingredients used in it, proves upon analysis to have in its composition four substances not named upon its label, two of which are lime and sulphuric acid. Most of the alum powders are fraudulently sold as pure cream of tartar goods.

The danger incurred, should such powders be substituted for the "Royal" will be apparent to every consumer.

### SOUTHERN PACIFIC COMPANY.
